# THE SERVICE INCLUSIVE ADVANTAGE

WHY SHOULD YOU PURCHASE SERVICE INCLUSIVE?

## 1 PROTECT THE VALUE OF YOUR BMW.

By taking care of your vehicle's essential maintenance needs on a regular basis, you will keep it in tip top shape and retain the maximum amount of value should you ever decide to sell or trade it in.

## 3 ADD PEACE OF MIND WITH REGULAR MAINTENANCE.

Drive with confidence knowing that your vehicle has received the necessary care that it deserves – without the added service invoices. Speak with your BMW Service Advisor to learn how much you can save on service.

## 2 REDUCE RISK ON THE ROAD.

Anything can happen on the road, but keeping a BMW functioning as it was meant to will keep you as safe as possible through every twist and turn.

## 4 CHOOSE FROM A VARIETY OF TERM OPTIONS.

With a variety of customizable years and mileage plans to choose from, your vehicle can be covered based on its exact maintenance needs and your driving style.

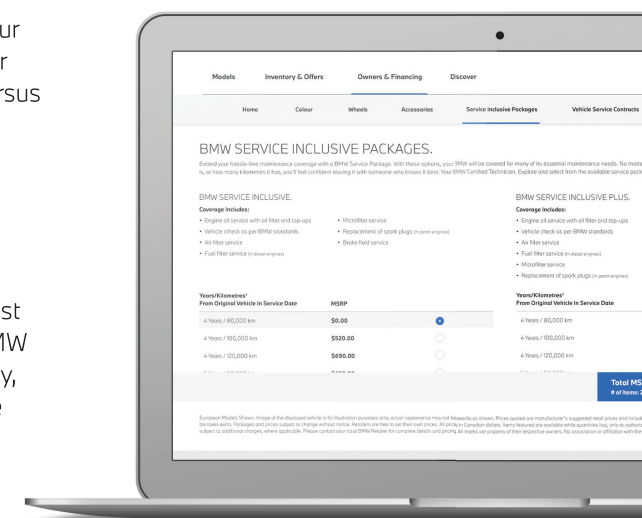

## 5 LOCK IN YOUR LONG-TERM COSTS TO ENJOY LONG-TERM SAVINGS.

With locked in costs over the long term and a package tailored to your precise needs, you will enjoy lower overall maintenance expenses versus services received a la carte.

## 6 ENJOY IMPROVED FUEL ECONOMY.

It's good to save on more than just maintenance costs. With your BMW performing at maximum efficiency, you will get much more out of the fuel you put in.

DETAILS.**  
VEHICLE MAINTENANCE.

## SERVICE INCLUSIVE

---

### ENGINE OIL SERVICE.

Keep your engine performing at its true potential. A BMW engine oil service uses only Original BMW Engine Oils to meet the highest quality standards required by BMW engines, and increase your vehicle's performance, efficiency, and longevity.

### VEHICLE SERVICE CHECK.

To make sure your BMW remains in the best possible condition, our BMW Certified Technicians will perform a full vehicle service check to assess everything from general wear and tear to fluids, brakes, the engine, and more.

### AIR, FUEL & MICROFILTER SERVICE.

Keeping a BMW's air, fuel, and microfilters clean and clear is an important part of maintaining its health and performance. Our technicians take great care to ensure the vehicle's filters are fit for the road ahead, and beyond.

### SPARK PLUG REPLACEMENT.

The misfires that may occur from older spark plugs can increase the exhaust emissions given off and decrease fuel economy. That's why we aim to maximize the vehicle's efficiency and performance with regular spark plug replacements.

### BRAKE FLUID SERVICE.

Staying on top of brake fluid levels is a key component in maintaining the performance and safety of a BMW over the long term. We'll service the brake fluid to preserve the vehicle's stopping power between maintenance visits.

## SERVICE INCLUSIVE PLUS

(Includes all vehicle maintenance listed in Service Inclusive Package)

Visit the Service Inclusive Calculator at **[bmw.ca/serviceinclusive](http://bmw.ca/serviceinclusive)** for additional pricing for your BMW and more information.

## BRAKE PAD/DISC REPLACEMENT.

Even high-quality brake pads or discs get worn down over time, and the result can be longer stopping distances and less effective braking. If new brake pads or discs are required, they'll be replaced by our BMW Certified Technicians using only Original BMW Parts.

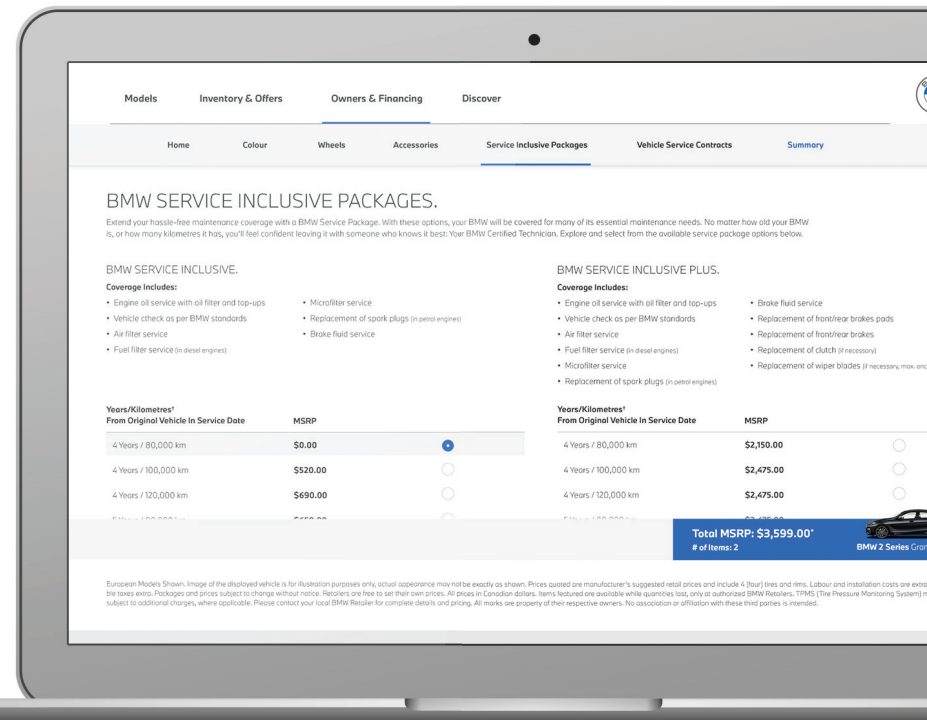

## CLUTCH REPLACEMENT.

Depending on driving style, some drivers may need to have their clutch replaced more often than others. To help you shift into gear smoothly on journeys both near and far, our technicians will assess the clutch and replace it with the utmost care (if required).

## WIPER BLADE REPLACEMENT.

Having a clear view of the road ahead is essential to keeping every drive as safe as possible. To help keep the windshield clear under harsher weather conditions throughout the year, we'll check to make sure the wipers are up to the task or replace them if need be.
